

Are organics effective
for protecting my
tomatoes?

Are synthetics
safe in my yard?

Are synthetics
safe in my home?

Are organics
effective controlling
pests?

Q: ORGANICS OR SYNTHETICS?

A: Yes

A close-up photograph of several tomatoes on a vine. One tomato is bright yellow-orange, while others are green. The background is a soft-focus green.

ORGANICS

A close-up photograph of a green leaf with visible white powdery mildew spots. The background is dark, textured soil.

SYNTHETICS

Both have a time and a place.

THEY HAVE QUESTIONS.

You have answers.

SPREAD THE WORD.
